

## Metochos Ministries Lutheran Bible Camp Association

### Campership Donations Information

Each year Metochos Ministries collects funds for campers who cannot afford the full cost of attending camp. Campers or parents of campers who need these funds apply to the camp using the Campership Application Form available on the website. The funds collected for Camperships are used during the given camping year to cover Camperships (financial assistance for campers), Bursaries (grants for staff returning as students to accredited post-secondary educational institutions), or for Program Expenses (which are costs for all campers beyond their registration fees.)

People and organizations who wish to provide funds for Camperships can do so in a variety of ways.

1. The money can be sent to the camp office, simply marked as Campership Funds. These funds will be used first to provide Camperships and if any is left toward the end of the season, it will be applied to the Bursary Fund for the Staff, or if unneeded for these designated needs it will be used to help cover the direct costs of providing program for the campers. (This may be for the summer program or for any other part of the camping program at Metochos.) Every effort will be made to apply the money to the current camping year.
2. The money can be sent to the camp office, marked as Campership Funds, with a request that they be limited to Camperships only (or any portion of the uses for left over Campership Funds.)
3. The money can be sent to the camp office, marked as Campership Funds, with a request that their use be reported back to you as donor. You will receive a letter from the Camp Director reporting how many Camperships/Bursaries/Program Expenses for the various camps your donation helped cover.
4. The money can be sent to the camp office, marked as Campership Funds, with a request for a specific use and for a donor report.
